## German-Russian Cooperation Network for Biotechnology

The German-Russian Cooperation Network for Biotechnology is a **cooperation platform** that provides access to **over 3,600 life sciences companies, research institutions and associations** in Russia and in Germany. The network is supported by the German Federal Ministry of Research and Education and was established by ZAB Brandenburg Economic Development Board and the Association of German Biotechnology Companies (VBÜ) as a free service to encourage cooperation, joint research and technology transfer between Russia and Germany.

Joining the German-Russian Cooperation Network for Biotechnology will help you to get access to two of the world's largest life sciences markets.

- Search profiles of more than 3,300 German and 300 Russian companies and research organisations
- Invite your potential partners to online partnering events
- Take part in online seminars
- Set up your own Russian-German experts' network
- Monitor the latest developments in science and industry in the two countries

## My Profile: Co-operation Opportunities

## **Other Functions**

- **Extensive e-mail functions**
- **Organization of targeted partnering events**
- **Integrated web conferencing platform for online meetings**

## **Web Conferencing**

### **Advantages**

- **Promotes the initiation of German-Russian cooperations**
- **Supports effective project and cooperation management**
- **Facilitates and boosts the set-up of online working groups**
- **Makes it possible to hold online meetings**
- **Permits the organization of online seminars**
- **Saves time and money, cuts down costs of travelling**
